

FORTEST

Testing Technology. Together.

FREE EVALUATION FORM

Free evaluation service is born in order to enable people to know the quality and the characteristics of ForTest instruments before buying them. The Customer can make tests in his company for 10 working days. During this time the Customer will be able to evaluate the real quality of our instruments and he will be able also to compare them with test systems that he is actually using.

SERVICE QUALITY

- Cost-free test of an instrument in his company
- Experience of the product before buying it.
- 10 working days of instrument cost-free use
- Comparison with systems actually in use
- Shipment of the instrument in 10 working days from the date of your request.
- Steady technical and regulations consultancy
- Creation of a test program suitable for your pieces to be tested

SERVICE INSTRUCTIONS

- The instrument must not be opened or however inspected inside.
- Security label must not be removed.
- The instrument must be returned to ForTest srl in the same conditions as ForTest srl has shipped to his Customer.
- The instrument must not have breakings due to carelessness, bad maintenance, wrong installation, operator disregard.
- The transport of the instrument is totally charged to the Customer.
- Term of service must be strictly of **10 working days**.
- At expiration date of the service the Customer must inform and return to ForTest srl the instrument lent.
